

### **An Open Letter to JEA Members**

**The Jordan Education Association has always worked to provide members with a professional career, including competitive salary, benefits, and working conditions which enable the delivery of the finest educational opportunities for all students.**

**The Jordan Education Association will provide timely information to our members so they can continue their careers without undue disruption and continue to provide the optimal learning experience for their students.**

**In the event of a Jordan District split, JEA will work to build employee associations in any new districts under the Jordan UniServ umbrella to defend and advocate for employees' salaries, rights, and benefits.**

**Passed by the Jordan Education Association Executive Board, October 22, 2007**
